

## WITT (Energy) update September 2020

### **RS Components**

A Global omni-channel distributor and solutions partner to over 1 million industrial customers.

RS Components are supporting WITT Energy with product sourcing for design and prototyping, working with leading manufacturers from across the electronics and industrial supply base to bring in relevant expertise to the project. Alongside this, WITT Energy will be connecting with the DesignSpark engineering community to share the progress and evolution of WITT devices.
